

Stay safe with our Risk Assessment Toolkit

BeAware – will provide management and staff with an overview of risk assessment, it provides a summary, using video, of the five stages to risk assessment.

BeSafe – provides your team with additional information about risk assessment, giving useful examples of hazards and risks found in your environment. You will also find all the forms management need to conduct risk assessments within your workplace.

VrBenmore – provides an overview to health and safety, the programme lasts for 45 minutes and allows all staff to become familiar with the issues they must take seriously within the workplace.

Risk Assessment Video – is a 15 minute video outlining risk assessment and its value to the business

“Valid information providing you with a three year support programme for managing general risks within your business, that’s from 2005 – 2008, we believe that’s value for money”!

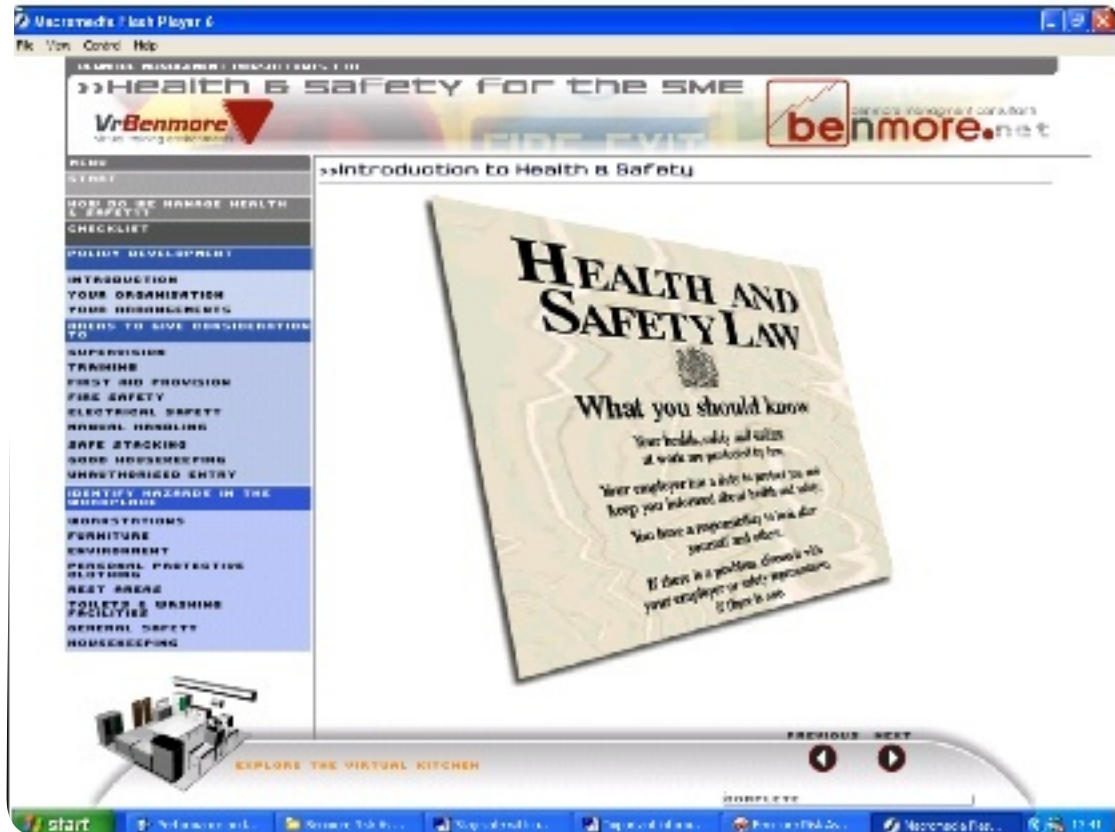

David Shaw Director
